RE: SPT Gyro Satisfaction

Dear Orlando:

I have been meaning to write you for some time. Last night I surveyed a hole that I had surveyed before last April (it is now July) I was very pleased that the survey data matched nearly identically (I have used this same tool do do about 100 surveys between these two surveys) I also want to thank you for your personal help getting a gyro to me in time to meet the needs of my customer. I know you put in a lot of personal effort to make that work.

Thank you and everyone else at SPT for your help and ongoing support.

Best Regards,

Steven Homer
